(continued on page four)

The Largest Leather Belt In Canada Just Installed

The largest leather belt in Canada has just been installed at the plant of the Ogilvie Flour Mills in Medicine Hat.

The hides of three hundred innocent steers went into the making of this belt, reverting to the ancient practice of turning the mill that ground the wheat - not, this time, by gently plodding around a large pair of stones, but by flying at sixty miles an hour around a twenty-two foot pulley.

There are three plies in this belt, each 72 inches wide. It has a length of 125 feet and weighs exactly one ton.

The old belt, which this replaces, was always a source of interest and wonderment to visitors to the mill. For forty-five years it did its duty. The new belt is expected to function for as long or longer, during which time the 300 steers used in the making of it will confer far greater blessings on mankind than they ever could have done in a short and gay life on the hoof.

For our readers dear,
This little space here,
We must fill up

..... and up and up ??

Correction

In last week's issue we omitted the name of Odell Underhill as first-prize winner for beets, in the vegetable class of the School Fair prizewinners.

Unsuitable Harvest

Weather Prevails

The past two weeks have been such that harvest has shown slow progress, combines would operate a day or two and then rest. At time of going to press the clouds threatened to leave a little snow, which might help to clear the air so that harvesting can be completed.

Yields thus far are very good, however; W. Urquhart informs us that on a piece of spring breaking the average yield of Red Bobs No. 1 Northern wheat went 70 bushels per acre. So far this is the best yield reported. F. Laut has completed threshing and reports a general yield of 27-28 bushels per acre.

We heard that E. Meyers sustained a ruptured blood vessel in his leg last week, while working on the E. Bills harvest outfit. Dr. Whillans attended to the injuries

And, "No News is Good News"

Elevator Companies Build to Increase Grain Capacity

Messrs. Voss Bros., of Calgary, have been busy here the past week erecting extra buildings for some of the elevator companies to increase their grain capacity.

The Parrish & Heimbecker elevator at Nier will have space for an additional 25000 bushels. The local P&H and U.G.G. elevators will each have space for additional 25000 and the Pool elevator will have space for 35000 more bushels.

Some Funny Want Ads.

Lots of funny want ads get into the Want Ad. columns of newspapers. They are so funny sometimes that people have begun to collect them. Here are a few from the assortment of a collector:

"Personal: Family lawyer will read the will next Sunday morning at the residence of Timothy Hallahan, who died January 15, to accommodate his relatives."

"Wanted: Strong willing young man to take care of horses who can speak Spanish."

"For Sale: Nice double mattress by an old lady full of feathers."

"Wanted: For the holidays: Extra male and female help; no others need apply."

"For Quick Sale: Jersey cow giving 8 quarts of milk, a single bed and a music box."

"Personal: Man of means who snores desires to meet attractive woman who is deaf but not dumb. Object matrimonial peace."

"For Sale: Bakery business. Good location, good trade. Large oven, owner has been in it for 21 years."

"For Rent: Reasonable modern 6-room flat, with bath on the car line."

"Wanted: Bright boy who can open oysters with a reference."

"For Sale: Grand piano by a young lady with mahogany legs and case."

"Wanted: A large well-furnished room by a young lady about 14 feet square."

"For Sale: Nice parlor suite by an old couple stuffed with hair."—Exchange.

**The Crimson Trail**

A brand new story comes to CFAC listeners "The Crimson Trail"! The story is set in Western Canada in the days when the Canadian Pacific Railway was pushing its way slowly across the vast prairies and the rugged mountains. Most of the incidents happen in and around the

Crossfield Chronicle

Rate Card On Application

Wall Bros., Publishers

district we now know as CALGARY.

"The Crimson Trail" tells of a hard-riding stranger who quietly joins one of the ranches as a 'puncher'. Calling himself Brand Emerson, he meets a worthy opponent in Big Bill Blair, foreman of the neighbouring Dunsmuir ranch. Big Bill is wanted by every Western State in the United States for crimes varying from horse stealing to murder—and Brand Emerson soon finds proof of his lawlessness in Western Canada.

We soon find that Brand Emerson is a member of that newly-formed band of law enforcers the Northwest Mounted Police. In his investigations Brand feels sure that all the lawlessness is under the control of one very clever man... and that Big Bill Blair is only a pawn in the game. How Brand Emerson cleans up the bed of intrigue and "gets his man" makes one of the fastest moving stories yet to cross the airwaves.

This new feature, "The Crimson Trail" is heard over CFAC Monday, Wednesday and Friday evenings at 5:45 p.m.

The Byron Brothers

Another new feature for CFAC listeners is the weekly programme of the Byron Brothers. They have their own style of telling stories, both old and young, in song. Their entertainment is best described in the words of the announcer, "The Byron Brothers sounding a four-fold welcome in lyrical off-beats and blue sweet harmony." These four songsters and music-makers are heard over CFAC every Thursday evening at 6:30 p.m. The music is different and appealing. You're sure to like it!

The World of Wheat.

By H. G. L. Strange

The Polish people, attacked without warning and in a brutal fashion by Hitler's Armed Forces in the West, and by Stalin's Armies in the East, are crushed, but the gallant stand they made will go ringing down through the annals of history.

Hitler assures us he is now satisfied, and that we can have peace, but he told us this in 1935 and then he took the Rhine land; repeated it in 1938 and then he took Austria; assured us again in 1938 and took Czecho-

slovakia; then he seized Memel and now Poland; so what are his solemn assurances worth? All we can think of is, who is next for the slaughter? No doubt Holland with her oil, France with her iron, Great Britain with her coal, tin and rubber, Canada with her wheat, nickel and pulpwood, and then the United States with her cotton, copper and oil, for all these products, Hitler tells us, he badly needs.

Our only chance for survival, obviously, is for all those nations who desire to maintain the lands they live in, and who treasure the ideals of international decency, of fairness, and of freedom, to band together and to defend themselves vigorously before they are caught, one at a time, and alone, and defenceless, in Hitler's brutal trap.

Goozles

Goozles again; even though there are not very many.

Nora says the high school ambulance is as big as the school, bomb proof, bullet proof crash proof and everything proof, but you can't proof it by us. (Boy proof too, Nora?)

Four girls tried to run away with Danny's car, but instead it ran away from them. He does not know it.

Harold Hunt sporting a new 1908 car. Says Nora.

Some of Crossfield's most brilliant students being moved to the front, as a good influence on the teacher.

Walt Harris tells us that Chuck Hopper is alright in the field, but he has a tendency to throw the bundles over the rack. Should have Harold Hunt on the other side to catch them

A tip for Harvesters: We have learned that the best way to load a rack is "start at the bottom and build up".

Earl Devins wants a trim, but that's all he can ever get.

A fellow herding sheep is called a shepherd; what would a man herding cows be called.

Around Field And Barn.

By E. M. C.

The department of agriculture has issued a grasshopper report urging farmers to undertake fall cultivation to destroy eggs, by exposing them to sun and wind.

Grasshopper eggs have to be dried out; extreme heat or cold will not injure them. Millions of eggs are being laid at this time, and it is cheaper and easier to destroy the eggs than to spread poison bait.

If we do not take precautions now we may find we really have hoppers. Prevention is better than fighting a condition resulting from neglect.

Some day we will have to pay more attention to the suitability of a farm to certain branches of agriculture.

So far we speak only of a grain farm or a stock farm and leave it at that. Soil types do not interest us as much as they should. We grow wheat for instance on soil and in locations not suited to it.

Some farms are first class grass areas, others that have never produced a bushel of No. 1 wheat, grow excellent barley and oats which in most cases must be fed. Crop share agreements are responsible in many cases since wheat is the only grain considered.

Goozles

Lou Lennon tearing down the paved highway at the terrific speed of thirty-five miles an hour. "Did I hang on!"

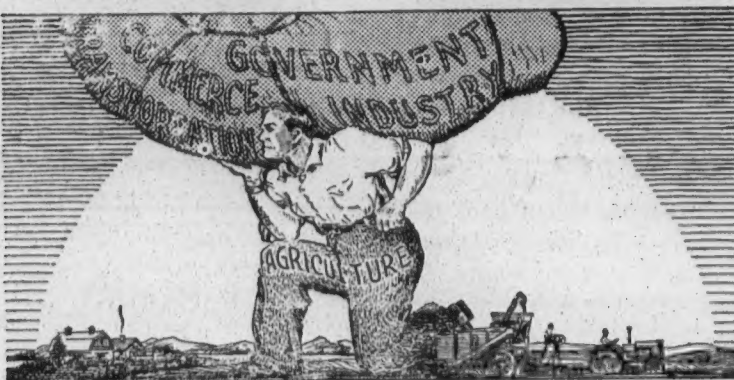

Mrs. Edlund applying for a position at the Chronicle office as proof reader.

Mrs. Bannister wondering why some people don't follow the rules.

Frank Treca walking four miles to town to get warmed up.

Laugh until next week.

The GIANT of ALBERTA

THE ancients thought the sky was held up on the shoulders of the giant Atlas. But Alberta is actually carried, from an economic standpoint, on the shoulders of the giant Agriculture.

Last year, less than 100,000 Alberta farmers produced \$167 million of new wealth. Of that total \$118 million came from field crops, mostly wheat.

Where would Alberta's 775,000 people get a living if it were not for agriculture? Yet this great industry must struggle along under the burden of marketing methods which, more often than not, provide inadequate prices. Sophistry and theorizing avail little. Action is needed. The Wheat Pools and the farm organizations got the Wheat Board. This was a great forward step in marketing wheat, to which all now subscribe.

But it is just a step. The Board must be perpetuated. The agricultural industry must have greater all-round price protection. There must be no return to the laissez-faire methods. An aroused agriculture can make progress by uniting its strength. The best way to do this is to build up farm organizations and co-operatives.
